

You can choose one course from 8 options below according to your interests.

After you graduate

Human Science Course

A

A department of the humanities at a national, prefectural and other public universities, etc.

Mathematical Science Course

B

A department of the science course at a national, prefectural and other public universities, etc.

Cross-Cultural Understanding Course

C

A department of the humanities at a private university, etc.

Environmental Science Course

D

A department of the science course at a private university, etc.

Sports Science Course

E

A department of Health & Sports course at a national, prefectural and other public / private university, etc.

Information Technology Course

F

A department of Information Business at a national, prefectural and other public / private university, etc.

Life and Culture Course

G

A department of becoming a childcarer, a nurse at a national, prefectural and other public/private university and technical college, etc.

International Business Course

H

Get a job (a civil service or an employee)

We advise students to have "DREAM" for their future.

10th grade students Talk about your own dreams → We have special classes to widen knowledge and tell your dreams

11th grade students To deepen your own dreams → You can strengthen your own knowledge and experiences because you choose classes

12th grade students To take off for your dreams → To prepare for an academic and your career.

You can choose your own timeschedule for your dreams!

We show you examples of 12th grade students' schedules.

Human science Course

A You can deepen your knowledge of literature, history, politics and economy and foreign language.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Japanese History B	Classical Japanese B	Communication English III	Classical Japanese B	English Expression II
2	Basic Biology	Advanced Math I A	Basic Biology	Communication English III	Advanced Math II B
3	Advanced English II	Communication English III	Advanced English II	Contemporary Japanese B	Japanese History B
4	Basic Biology	Basic Biology	P.E.	Advanced Contemporary Social Studies	Advanced Contemporary Social Studies
5	Communication English III	English Expression II	Advanced Math II B	Advanced Math I A	Classical Japanese B
6	Contemporary Japanese B	Japanese History B	Japanese History B	ε time	P.E.

Mathematical Science Course

B You can deepen your knowledge of math and science.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Math III	Chemistry	Communication English III	Chemistry	Physics
2	Physics	Math III	Physics	Communication English III	Advanced Math II B
3	Advanced Chemistry	Communication English III	Advanced Chemistry	Contemporary Japanese B	Math III
4	Classical Japanese B	Classical Japanese B	P.E.	Advanced Contemporary Social Studies	Advanced Contemporary Social Studies
5	Communication English III	Physics	Advanced Math II B	Math III	Chemistry
6	Contemporary Japanese B	Math III	Math III	ε time	P.E.

Cross-Cultural Understanding Course

C You can deepen your knowledge of foreign languages and learn various cultures.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	World History B	Advanced World History II	Communication English III	Advanced World History II	Cross-Cultural Understanding
2	Basic Biology	Advanced Classical Japanese II	Basic Biology	Communication English III	Korean
3	Application of World History	Communication English III	Application of World History	Contemporary Japanese B	World History B
4	Advanced Contemporary Japanese II	Advanced Contemporary Japanese II	P.E.	Classical Japanese B	Classical Japanese B
5	Communication English III	Cross-Cultural Understanding	Korean	Advanced Classical Japanese II	Advanced World History II
6	Contemporary Japanese B	World History B	World History B	ε time	P.E.

Environmental Science Course

D You can deepen your knowledge of math and science. Also, you can learn a natural environment in Chita city through a field work.

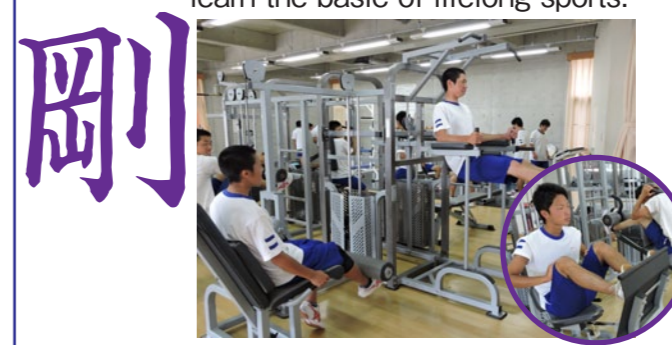

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Advanced Math for the science course	Chemistry	Communication English III	Chemistry	Biology
2	Biology	Advanced Math I A	Biology	Communication English III	Advanced Math II B
3	Advanced English II	Communication English III	Advanced English II	Contemporary Japanese B	Advanced Math for the science course
4	Environmental Biology	Environmental Biology	P.E.	Environmental analysis for science	Environmental analysis for science
5	Communication English III	Biology	Advanced Math II B	Advanced Math I A	Chemistry
6	Contemporary Japanese B	Advanced Math for the science course	Advanced Math for the science course	ε time	P.E.

We have small class teaching! It is a chance to obtain qualifications!

Sports Science Course

E You can deepen your knowledge of sports and health. You can also learn the basic of lifelong sports.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Life Design	Sports B	Communication English III	Sports B	Basic Math
2	Basic Biology	Training II	Basic Biology	Communication English III	Current Issues
3	General English	Communication English III	General English	Contemporary Japanese B	Analysis of Sports Data
4	Japanese expression	Japanese expression	P.E.	Recreation Sports	Recreation Sports
5	Communication English III	Basic Math	Current Issues	Training II	Sports B
6	Contemporary Japanese B	Analysis of Sports Data	Life Design	ε time	P.E.

Information Technology Course

F You can master skills of a computer. You can also improve your ability of dispatch information.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Practice an Information System	Advanced Math I A	Communication English III	Advanced Math I A	A study of a given subject (Information)
2	A study of a given subject (Information)	Basic Physics	A study of a given subject (Information)	Communication English III	Current Issues
3	Web Design	Communication English III	Web Design	Contemporary Japanese B	Practice an Information System
4	Introduction to Algorithm	Introduction to Algorithm	P.E.	Politics and Economy	Politics and Economy
5	Communication English III	A study of a given subject (Information)	Current Issues	Basic Physics	Advanced Math I A
6	Contemporary Japanese B	Practice an Information System	Practice an Information System	ε time	P.E.

Life and Culture Course

G You can deepen your knowledge of nutrition education, upbringing, nursing care. You can also learn an aging society.

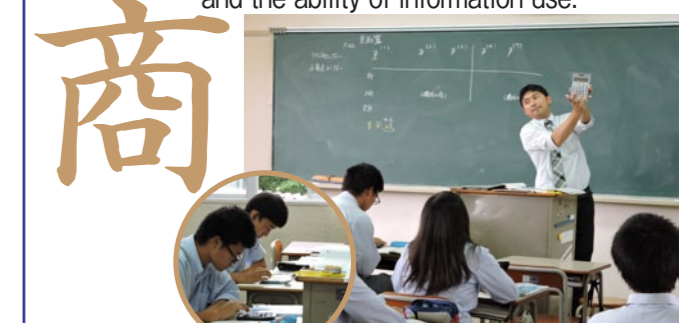

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Japanese History B	Japanese expression	Communication English III	Japanese expression	Basic Biology
2	Representation English II	Rhythmics	Representation English II	Communication English III	Korean
3	Kiddy Culture	Communication English III	Kiddy Culture	Contemporary Japanese B	Japanese History B
4	Advanced Contemporary Japanese II	Advanced Contemporary Japanese II	P.E.	Kiddy Culture	Kiddy Culture
5	Communication English III	Basic Biology	Korean	Rhythmics	Japanese expression
6	Contemporary Japanese B	Japanese History B	Japanese History B	ε time	P.E.

International Business Course

H You can deepen your knowledge of business. You can also improve your competence at dealing with office work and the ability of information use.

We have a homeroom on Thursday at the seventh period.

	Mon.	Tue.	Wed.	Thu.	Fri.
1	Life Design	Expression and Management of Information	Communication English III	Expression and Management of Information	Basic Math
2	Basic Biology	Classic Culture	Basic Biology	Communication English III	A study of a given subject (Information)
3	Life Culture A	Communication English III	Life Culture A	Contemporary Japanese B	Basic Biology
4	Basic Business	Basic Business	P.E.	Current issues	Current issues
5	Communication English III	Basic Math	A study of a given subject (Information)	Classic Culture	Expression and Management of Information
6	Contemporary Japanese B	Basic Biology	Life Design	ε time	P.E.
